

Offre n°2024-07127

Technical Project Manager – PEPR Cloud

Type de contrat : Fixed-term contract

Contrat renouvelable : Oui

Niveau de diplôme exigé : Master's or equivalent

Fonction : Support functions

Corps d'accueil : Ingénieur d'Etudes / Ingénieur de Recherche (IE/IR)

Niveau d'expérience souhaité : Up to 3 years

Contexte et atouts du poste

France's national roadmap identifies Cloud technologies as crucial for sovereignty and security, aiming to bolster the country's position in the market. The national strategy seeks to develop secure, sovereign Cloud offerings and aligns with European initiatives to strengthen digital sovereignty. Objectives encompass industry support, data protection, training, and European collaboration.

The Cloud PEPR (Priority Research Projects and Equipments), mandated by the French government, aims to contribute to Cloud technology advancement and align with the national Cloud strategy. The PEPR has been structured around a program supervised by strategic, scientific, and management committees, emphasizing collaboration and contributions to technological innovation.

Scientifically, the PEPR focuses on developing secure, interoperable hybrid clouds, new solutions for processing large volumes of data, also known as hyperscale, and distributed solutions based on the Edge Computing. Research areas include hardware aspects, life cycle management of both infrastructures and applications, security, and energy consumption control. It emphasizes the need for

experimental infrastructure facilitating comprehensive studies across software layers, complementary to existing research Clouds.

Mission confiée

To ensure the success of the project, we are establishing an operational management team consisting of one manager, two project leaders, a management officer and a communication manager.

Located at Nantes, this team will work in coordination with the two PEPR's leaders, Adrien Lebre (Inria) and Jean Noel Patillon (CEA) in order to ensure the successful execution of the planned actions, as well as the regular review of scientific objectives in line with advancements in the scientific and technological domain. This involves engaging with the academic and industrial ecosystem. An important aspect involves fostering collaboration internally among various projects within the PEPR Cloud and with other PEPR initiatives such as Cybersecurity, Future Networks, Numplex, etc..

Additionally, there will be efforts to promote project outcomes to industry stakeholders. This includes implementing a strategy to encourage interactions with key open-source communities (such as the Cloud Native Computing Foundation, openInfra, Eclipse, etc.) involving major French corporations as well as small and medium enterprises (SMEs).

Principales activités

More specifically, the technical project manager will:

- Monitor and verify projects progress, compliance with specifications, participate in deliveries to ensure their conformity, and follow up with ANR
- Facilitate collaborations when relevant between the different PEPR Cloud projects
- Foster relationships with the main open-source communities (OpenInfra, Cloud Native Foundation, etc.), major industrial actors, and the PEPR to promote activities and keep PEPR Cloud projects informed about the main challenges addressed by these communities.
- Follow EU Calls and favor partnerships when relevant.
- Participate in organizing various events of the PEPR, including scientific days, meetings with industry professionals, workshops, etc.
- Participate in the animation strategy within the PEPR, as well as with other related PEPRs (future networks, cybersecurity, etc.).
- Taking part to the writing of the PEPR Cloud newsletter
- International/National travels may be required

Compétences

Qualities sought for this position include :

- A Masters' degree or equivalent (engineering school) or a doctorate in the field of computer science.
- Proficiency in English, both spoken and written.
- Excellent interpersonal skills, a penchant for internal and external communication, and an affinity for scientific and IT fields.
- Strong interpersonal skills and a preference for teamwork.
- Rigorous in analyzing and synthesizing administrative data and project documents/reports (precision, prioritization skills, and ability in reporting).
- Sense of responsibility and autonomy.
- Knowledge of French and European funding opportunities as well as familiarity with the French public research sector is advantageous.

Avantages

- Subsidized meals
- Partial reimbursement of public transport costs
- Leave: 7 weeks of annual leave + 10 extra days off due to RTT (statutory reduction in working hours) + possibility of exceptional leave (sick children, moving home, etc.)
- Possibility of teleworking (after 6 months of employment) and flexible organization of working hours
- Professional equipment available (videoconferencing, loan of computer equipment, etc.)
- Social, cultural and sports events and activities
- Access to vocational training
- Social security coverage

A propos d'Inria

Inria est l'institut national de recherche dédié aux sciences et technologies du numérique. Il emploie 2600 personnes. Ses 215 équipes-projets agiles, en général communes avec des partenaires académiques, impliquent plus de 3900 scientifiques pour relever les défis du numérique, souvent à l'interface d'autres disciplines. L'institut fait appel à de nombreux talents dans plus d'une quarantaine de métiers différents. 900 personnels d'appui à la recherche et à l'innovation contribuent à faire émerger et grandir des projets scientifiques ou entrepreneuriaux qui impactent le monde. Inria travaille avec de nombreuses entreprises et a accompagné la création de plus de 200 start-up. L'institut s'orce ainsi de répondre aux enjeux de la transformation numérique de la science, de la société et de l'économie.

Attention: Les candidatures doivent être déposées en ligne sur le site Inria. Le traitement des candidatures adressées par d'autres canaux n'est pas garanti.

Consignes pour postuler

Sécurité défense :

Ce poste est susceptible d'être affecté dans une zone à régime restrictif (ZRR), telle que définie dans le décret n°2011-1425 relatif à la protection du potentiel scientifique et technique de la nation (PPST). L'autorisation d'accès à une zone est délivrée par le chef d'établissement, après avis ministériel favorable, tel que défini dans l'arrêté du 03 juillet 2012, relatif à la PPST. Un avis ministériel défavorable pour un poste affecté dans une ZRR aurait pour conséquence l'annulation du recrutement.

Politique de recrutement :

Dans le cadre de sa politique diversité, tous les postes Inria sont accessibles aux personnes en situation de handicap.
