Offre n°2024-07349

PhD Position F/M 15 PhDs on Tensor Modelling, Geometry and Optimisation

Le descriptif de l'offre ci-dessous est en Anglais

Type de contrat : CDD

Niveau de diplôme exigé : Bac + 5 ou équivalent

Autre diplôme apprécié : Master or equivalent

Fonction : Doctorant

Niveau d'expérience souhaité : De 3 à 5 ans

A propos du centre ou de la direction fonctionnelle

The Inria centre at Université Côte d'Azur includes 37 research teams and 8 support services. The centre's staff (about 500 people) is made up of scientists of different nationalities, engineers, technicians and administrative staff. The teams are mainly located on the university campuses of Sophia Antipolis and Nice as well as Montpellier, in close collaboration with research and higher education laboratories and establishments (Université Côte d'Azur, CNRS, INRAE, INSERM ...), but also with the region's economic players.

With a presence in the fields of computational neuroscience and biology, data science and modeling, software engineering and certification, as well as collaborative robotics, the Inria Centre at Université Côte d'Azur is a major player in terms of scientific excellence through its results and collaborations at both European and international levels.

Contexte et atouts du poste

TENORS (Tensor modEliNg, geOmetRy and optimiSation) is a Marie Skłodowska-Curie Doctoral Network / Joint Doctorate (2024-2027), offering 15 PhD positions.

The objective of TENORS is to conduct advanced research that addresses critical challenges in the fields of tensor modeling and computation, joining forces from algebraic geometry, global optimisation, numerical computation, high performance computing, data science, quantum physics.

It aims to feed an innovative and ambitious joint-Phd program to train highly qualified young scientists in new scientific and technological knowledge. The PhD candidates will obtain joint/double PhD diplomas from reputed universities within TENORS project.

The network partners are:

- Inria, Sophia Antipolis, France
- CNRS/LAAS, Toulouse France
- University of Konstanz, Germany
- Max Planck Institute, Germany
- The Arctic University of Norway
- University of Trento, Italy
- University of Florence, Italy
- NWO-I/CWI, Amsterdam, the Netherlands
- Czech Technical University in Prague
- Institut of Photonic Science, Spain
- Artelys SA, Paris, France

The associate partners are:

- Quandela, France
- Cambridge Quantum Computing Limited, UK
- BlueTensor, Italy
- Arva, Norway
- HSBC, UK
- Université Côte d'Azur, France
- University of Tilburg, the Netherlands
- Université Toulouse III-Paul Sabatier, France
- Leipzig University, Germany
- Universitat Politecnica de Catalunya, Spain
Benefits

Marie Sklodowska-Curie PhDs are paid a competitive gross salary of 3,400 €/month, adjusted for their host country, a Mobility Allowance of 600 €/month and, for researchers who have a family, a Family Allowance of 660 €/month. All amounts are subject to deductions and taxes. Family is defined as persons linked to the researcher by (i) marriage, or (ii) a relationship with equivalent status to a marriage recognised by the nationality of the country of the beneficiary or of nationality of the researcher, or (iii) dependent children who are actually being maintained by the researcher; family status is determined at recruitment and does not evolve.

Principales activités

List of PhD topics

**DC 1: Geometry of extensor varieties**
Advisor: B. Mourrain (Inria), A. Bernardi (University of Trento)
Recruitment place: Inria d'Université Côte d'Azur, France
Secondment place: University of Trento (10 months), BlueTensor (2 months)
Joint degree: Université Côte d’Azur, University of Trento

**DC 2: Low-rank approximation for tensor modeling**
Advisor: A. Mantzaflaris (Inria), C. Giannelli (University of Florence)
Recruitment place: Inria d'Université Côte d'Azur, France
Secondment place: University of Florence (10 months), Artelys (2 months)
Joint degree: Université Toulouse III-Paul Sabatier, University of Konstanz

**DC 3: Tropicalization of moment relaxations for tensor decompositions**
Advisor: M. Skomra (LAAS/CNRS), S. Kuhlmann (University of Konstanz)
Recruitment place: CNRS, France
Secondment place: University of Konstanz (10 months), Arvex (2 months)
Joint degree: Université Toulouse III-Paul Sabatier, University of Konstanz

**DC 4: Cohomology of tensor varieties**
Advisor: M. Michalek (University of Konstanz), G. Ottaviani (University of Florence)
Recruitment place: University of Konstanz, Germany
Secondment place: University of Florence (13 months)
Joint degree: University of Konstanz, University of Florence

**DC 5: Tensor decompositions for sums of even powers of real polynomials**
Advisor: S. Kuhlmann (University of Konstanz), B. Mourrain (Inria)
Recruitment place: University of Konstanz, Germany
Secondment place: Inria (10 months), UiT The Arctic University of Norway (2 months)
Joint degree: University of Konstanz, Université Côte d’Azur

**DC 6: Gibbs manifolds and semidefinite programming**
Advisor: B. Sturmfels (The Max-Planck-Gesellschaft), S. Telen (The Max-Planck-Gesellschaft), M. Laurent (NWO-I)
Recruitment place: Max Planck Institutes, Germany
Secondment place: NWO-I (11 months), HSBC Lab (2 months)
Joint degree: University of Leipzig, University of Tilburg

**DC 7: Tensor decomposition with group invariance**
Advisor: H. Munthe-Kaas (UiT The Arctic University of Norway), C. Rienner (UiT The Arctic University of Norway), E. Hubert (Inria)
Recruitment place: UiT The Arctic University of Norway
Secondment place: Inria (12 months)
Joint degree: UiT The Arctic University of Norway, Université Côte d’Azur

**DC 8: Tensor optimization for storage integration**
Advisor: C. Bordin (UiT The Arctic University of Norway), C. Rienner (UiT The Arctic University of Norway), M. Schweighofer (University of Konstanz)
Recruitment place: UiT The Arctic University of Norway
Secondment place: University of Konstanz (9 months), Arvex (3 months)
Joint degree: UiT The Arctic University of Norway, University of Konstanz

**DC 9: Algorithms for Tensor Decomposition**
Advisor: A. Bernardi (University of Trento), A. Oneto (University of Trento), B. Mourrain (Inria)
Recruitment place: University of Trento, Italy
Secondment place: Inria (11 months), BlueTensor (2 months)
Joint degree: University of Trento, Université Côte d’Azur

**DC 10: Geometry of tensor network varieties for quantum condensed matter physics**
Advisor: I. Carusotto (INO-BEC, CNR), S. Telen (The Max-Planck-Gesellschaft)
Recruitment place: University of Trento, Italy
Secondment place: The Max-Planck-Gesellschaft (10 months), Quandella (3 months)
Joint degree: University of Trento, University of Leipzig

**DC 11: Geometry of Hermitian tensor spaces**
Advisor: G. Ottaviani (University of Florence), Yang Qi (Inria), B. Mourrain (Inria)
Recruitment place: University of Florence, Italy
Secondment place: Inria (10 months)
Joint degree: University of Florence, Université Côte d’Azur

**DC 12: Approximation hierarchies for quantum entanglement detection**
Advisor: M. Laurent (NWO-I), V. Magron (LAAS/CNRS)
Recruitment place: NWO-I, the Netherlands
Secondment place: LAAS/CNRS (10 months), Quantinuum (2 months)
Joint degree: University of Tilburg, Université Toulouse III-Paul Sabatier
DC 13: State preparation of matrix-product operations  
Advisor: J. Marecek (Czech Technical University), D. Henrion (LAAS/CNRS), M. Korda (LAAS/CNRS)  
Recruitment place: Czech Technical University, Czech Republic  
Secondment place: LAAS/CNRS (9 months), HSBC Labs (3 months)  
Joint degree: Czech Technical University, Université Toulouse III-Paul Sabatier

DC 14: Tensor and polynomial optimisation for quantum information networks  
Advisor: A. Acín (The Institute of Photonic Sciences), V. Magron (LAAS/CNRS)  
Recruitment place: The Institute of Photonic Sciences, Spain  
Secondment place: LAAS/CNRS (10 months), Quandela (2 months)  
Joint degree: Universitat Politècnica de Catalunya, Paul Sabatier University

DC 15: Constrained Optimization with Low-Rank Tensor Approximations  
Advisors: F. Oztoprak Topkaya (Artelys), M. Gabay (Artelys), B. Mourrain (Inria), C. Riener (University of Trento)  
Recruitment place: Artelys, France  
Secondment place: University of Trento (12 months)  
Joint degree: Université Côte d'Azur, University of Trento

Compétences

Eligibility criteria

To apply for one of these PhD positions, the applicant should fulfill the following conditions:

- Have — at the date of recruitment — a Master's degree in Computer Science, Mathematics or Engineering (or any equivalent diploma).
- Trans-national mobility: The applicant — at the date of recruitment — should not have resided in the country where the research training takes place for more than 12 months in the 3 years immediately prior to recruitment, and not have carried out their main activity (work, studies, etc.) in that country. For refugees under the Geneva Convention (1951 Refugee Convention and the 1967 Protocol), the refugee procedure (i.e. before refugee status is conferred) will not be counted as 'period of residence/activity in the country of the beneficiary'.
- Be able to communicate fluently in English (speaking and writing). Oral interview with the prospective advisor may be required.

Note: A Master's degree (or equivalent) is not necessary at the time of the application, but will be required at the date of recruitment (in September or October 2024).

Avantages

- Subsidized meals
- Partial reimbursement of public transport costs
- Leave: 7 weeks of annual leave + 10 extra days off due to RTT (statutory reduction in working hours) + possibility of exceptional leave (sick children, moving home, etc.)
- Possibility of teleworking and flexible organization of working hours
- Professional equipment available (videoconferencing, loan of computer equipment, etc.)
- Social, cultural and sports events and activities
- Access to vocational training
- Contribution to mutual insurance (subject to conditions)

Rémunération

Duration: 36 months  
Marie Skłodowska-Curie PhDs are paid a competitive gross salary of 3,400 €/month, adjusted for their host country, a Mobility Allowance of 600 €/month and, for researchers who have a family, a Family Allowance of 660 €/month. All amounts are subject to deductions and taxes. Family is defined as persons linked to the researcher by (i) marriage, or (ii) a relationship with equivalent status to a marriage recognised by the national legislation of the country of the beneficiary or of nationality of the researcher, or (iii) dependent children who are actually being maintained by the researcher; family status is determined at recruitment and does not evolve.

Informations générales

- Thème/Domaine : Algorithmique, calcul formel et cryptologie  
  Calcul Scientifique (BAP E)  
- Ville : Sophia Antipolis  
- Centre Inria : Centre Inria d'Université Côte d'Azur  
- Date de prise de fonction souhaitée : 2024-03-01  
- Durée de contrat : 3 ans, 7 mois  
- Date limite pour postuler : 2024-12-31

Contacts

- Équipe Inria : AROMATH

A propos d'Inria

Inria est l'institut national de recherche dédié aux sciences et technologies du numérique. Il emploie 2600 personnes. Ses 215 équipes-projets agiles, en général communes avec des partenaires académiques, impliquent plus de 3900 scientifiques pour relever les défis du numérique, souvent à l'interface d'autres disciplines. L'institut fait appel à de nombreux talents dans plus d'une quarantaine de métiers différents. 900 personnels d'appui à la recherche et à l'innovation contribuent à faire émerger et grandir des projets scientifiques ou entrepreneuriaux qui impactent le monde. Inria travaille avec de nombreuses entreprises et a accompagné la création de plus de 200 start-up. L'institut s'efforce ainsi de répondre aux enjeux de la transformation numérique de la science, de la société et de l'économie.

L'essentiel pour réussir

Selection process

To apply for one of these positions, submit at https://easychair.org/conferences/?conf=tenors2427 a single pdf document containing

- a detailed CV including education, work experience, skills, dissertations, research interests, career objectives, and — if available at the date of submission — names and contact details of two referees, that can include the supervisor of the master thesis, willing to provide confidential letters of recommendation, a list of publications if any;
- a letter of motivation regarding the position as well as the TENORS network;
- a transcript of the master studies' grades (including the overall grade and an explanation of the grading system) and the master's thesis if available;
- and indicate as TITLE your full name, add 3 KEYWORDS, and chose the TOPICS you are interested in (ALL, DC1, ..., DC15, see below).

Attention: Les candidatures doivent être déposées en ligne sur le site Inria. Le traitement des candidatures adressées par d'autres canaux n'est pas garanti.

Sécurité défense :
Ce poste est susceptible d'être affecté dans une zone à régime restrictif (ZRR), telle que définie dans le décret n°2011-1425 relatif à la protection du potentiel scientifique et technique de la nation (PPST). L'autorisation d'accès à une zone est délivrée par le chef d'établissement, après avis ministériel favorable, tel que défini dans l'arrêté du 03 juillet 2012, relatif à la PPST. Un avis ministériel défavorable pour un poste affecté dans une ZRR aurait pour conséquence l'annulation du recrutement.

Politique de recrutement :
Dans le cadre de sa politique diversité, tous les postes Inria sont accessibles aux personnes en situation de handicap.
